SHANJAYRAM M.

Aspiring AI/ML Engineer & Software Developer

shanjayram007@gmail.com | github.com/shanju1010 | linkedin.com/in/shanjayram-m

PROFESSIONAL SUMMARY

Computer Science and Engineering (AI & ML) undergraduate with hands-on experience building full-stack applications, backend APIs, and AI-focused prototypes. Interested in software development and applied AI/ML; experienced in both individual builds and team projects.

EDUCATION

Ramco Institute of Technology | B.E. Computer Science and Engineering (AI & ML) | Expected 2029

CGPA: 7.83/10 (through Semester 2)

TECHNICAL SKILLS

Programming: Python, C, C++, Java

Web & APIs: React, TypeScript, JavaScript, HTML, CSS, FastAPI, Django, Django REST Framework, REST APIs

Databases & Tools: SQLite, SQLAlchemy, Git, GitHub, Vite

Core Concepts: Data Structures, Graph Algorithms (Dijkstra, BFS, DFS), OOP, AI/ML Fundamentals

SELECTED PROJECTS

Student Feedback Management System | Solo Full-Stack Project

- Built a role-based academic feedback application using FastAPI, SQLAlchemy, SQLite, HTML, CSS and JavaScript.
- Implemented student submissions, faculty reports, admin workflows, feedback cycles, and duplicate-submission prevention.
- Added hashed passwords, session authentication, privacy-aware reporting, and a Render-hosted demonstration.

CampusWay | Team Project — Backend Developer

- Developed FastAPI endpoints and SQLite data workflows for a campus navigation prototype.
- Implemented graph-routing support for Dijkstra, BFS, and DFS over sample campus data; no deployment claimed.

RentRide | Solo Full-Stack Project

- Built a vehicle rental application with a React/TypeScript frontend and Django REST Framework backend.
- Implemented vehicle browsing, booking, and administrative workflows with SQLite for development.

RETINOXAI | Team Project — Independent Prototype Developer

- Independently developed the team's React/TypeScript frontend prototype for retinal-screening workflows.
- Built image upload, quality-check, prediction-display, and visualization interfaces; not clinically validated.

ADDITIONAL EXPERIENCE

Aaral Academy — Client Website | Team Frontend Contributor

- Contributed semantic HTML, responsive navigation, and client-feedback refinements in a three-person team for a live academy website.
